Environmental Biology of Fishes **65:** 481–484, 2002.

Volume 65

Issue 1, pp. 1–116: September 2002
Issue 2, pp. 117–248: October 2002
Issue 3, pp. 249–366: November 2002
Issue 4, pp. 367–486: December 2002

Volume contents

Editorial v

Farewell essay

Epigenetic processes, when *natura non facit saltum* becomes a myth, and alternative ontogenies a mechanism of evolution, by E.K. Balon 1–35

Full papers

Juvenile snooks (Centropomidae) as mimics of mojarras (Gerreidae), with a review of aggressive mimicry in fishes, by I. Sazima 37–45

Threatened fishes of the world: Valencia letourneuxi *Sauvage, 1880 (Valenciidae), by R. Barbieri, M. Th. Stoumboudi & A.N. Economou* 46

Ecomorphology of locomotion in labrid fishes, by P.C. Wainwright, D.R. Bellwood & M.W. Westneat 47–62

Reproductive investment and energy allocation in an alpine Arctic charr, *Salvelinus alpinus*, population, by A.G. Finstad, O.K. Berg, A. Langeland & A. Lohrmann 63–70

Behavioural overlap in six Caribbean labrid species: intra- and interspecific similarities, by K.M.M. Jones 71–81

Threatened fishes of the world: Gambusia gaigei *Hubbs, 1929 (Poeciliidae), by C. Hubbs, R.J. Edwards & G.P. Garrett* 82

Ontogenetic behavior and migration of Chinese sturgeon, *Acipenser sinensis*, by P. Zhuang, B. Kynard, L. Zhang, T. Zhang & W. Cao 83–97

Threatened fishes of the world: Notropis girardi *Hubbs & Ortenburger, 1929 (Cyprinidae), by G.R. Wilde* 98

Hypoxia tolerance of two haplochromine cichlids: swamp leakage and potential for interlacustrine dispersal, by M.C. Melnychuk & L.J. Chapman 99–110

Brief communication

Analysis of sharksucker, *Echeneis naucrates*, induced behavior patterns in the blacktip shark, *Carcharhinus limbatus*, by E.K. Ritter 111–115

Biodiversity of Pacific Ocean fishes

Guest Editors: Terry J. Donaldson & J. Michael Fitzsimons .....

Prelude to biodiversity of Pacific Ocean fishes, by T.J. Donaldson & J.M. Fitzsimons 121–122

Insular freshwater fishes of the Pacific

Similarities in behavioral ecology among amphidromous and catadromous fishes on the oceanic islands of Hawai'i and Guam, by J.M. Fitzsimons, J.E. Parham & R.T. Nishimoto 123–129

Life history of the Hawaiian fish *Kuhlia sandvicensis* as inferred from daily growth rings of otoliths, by L.K. Benson & J.M. Fitzsimons 131–137

Insular freshwater fish faunas of Micronesia: patterns of species richness and similarity, by T.J. Donaldson & R.F. Myers 139–149

Molecules, morphology, speciation and history

Antitropicality of Pacific fishes: molecular insights, by C.P. Burridge 151–164

Widespread Indo-Pacific shore-fish species: a challenge for taxonomists, biogeographers, ecologists, and fishery and conservation managers, by A.C. Gill & J.M. Kemp 165–174

Tripterygiid fishes of New Caledonia, with zoogeographical remarks, by R. Fricke 175–198

Assessment and conservation

Pacific coral-reef fishes: the implications of behaviour and ecology of larvae for biodiversity and conservation, and a reassessment of the open population paradigm, by J.M. Leis 199–208

Coral reef fish assessment in the 'coral triangle' of southeastern Asia, by G.R. Allen & T.B. Werner 209–214

New Zealand demersal fish assemblages, by M.P. Francis, R.J. Hurst, B.H. McArdle, N.W. Bagley & O.F. Anderson 215–234

Taxonomic and distributional databases of fishes in Taiwan, by K.-T. Shao, L.-Y. Hsieh, Y.-Y. Wu & C.-Y. Wu 235–240

High islands versus low islands: a comparison of fish faunal composition of the Palau Islands, by T.J. Donaldson 241–248

Invited editorial

On the origins of the Spanish word 'tiburón', and the English word 'shark', by J.I. Castro 249–253

Obituary

Antonín Lelek – the fish biologist of two continents and two countries (1933–2002), by E.K. Balon, C. Flegler-Balon & R. Bless 255–262

Rapid communication

Gross anatomy and histology of the hook and skin of forehead brooding male nurseryfish, *Kurtus gulliveri*, from northern Australia, by T.M. Berra & J.D. Humphrey 263–270

Full papers

An examination of utilizing external measures to identify sexually maturing female American eels, *Anguilla rostrata*, in the St. Lawrence River, by R.A. Cottrill, R.S. McKinley & G. Van Der Kraak 271–287

Threatened fishes of the world: Cyprinodon elegans *Baird & Girard, 1853 (Cyprinodontidae), by G.P. Garrett, C. Hubbs & R.J. Edwards* 288

Reproductive biology of the coral-reef goby, *Asterropteryx semipunctata*, in Kaneohe Bay, Hawaii, by L.A. Privitera 289–310

Dimorphic sperm influence semen distribution in a non-copulatory sculpin *Hemilepidotus gilberti*, by Y. Hayakawa, R. Akiyama, H. Munehara & A. Komaru 311–317

Threatened fishes of the world: Acanthobrama mirabilis *Ladiges, 1960 (Cyprinidae), by H.M. Sari & M. Bilecenoglu* 318

Relationship between male size and newborn size in the seaweed pipefish, *Syngnathus schlegeli*, by S. Watanabe & Y. Watanabe 319–325

Threatened fishes of the world: Hippocampus erectus *Perry, 1810 (Syngnathidae), by T.L. Dias, I.L. Rosa & J.K. Baum* 326

An analysis of fish species richness in natural lakes, by U.S. Amarasinghe & R.L. Welcomme 327–339

Threatened fishes of the world: Ladigesocypris ghigii *(Gianferrari, 1927) (Cyprinidae), by M.Th. Stoumboudi, R. Barbieri, Z. Mamuris, M.J. Corsini-Foka & A.N. Economou* 340

Early environmental influences on growth of Arcto-Norwegian cod, *Gadus morhua*, from the 0-group to adults, by K. Helle, M. Pennington, B. Bogstad & G. Ottersen 341–348

Fly larvae in wastewater discharges: a potential source of food and organochlorine contaminants for some southern California fishes, by D.J. Heilprin, C.R. Phillips & E. Basmadjian 349–357

Threatened fishes of the world: Gambusia georgei *Hubbs & Peden, 1969 (Poeciliidae), by R.J. Edwards, C. Hubbs & G.P. Garrett* 358

Brief communication

Sound production by adult haddock, *Melanogrammus aeglefinus*, in isolation, pairs and trios, by A.A. Bremner, E.A. Trippel & J.M. Terhune 359–362

Threatened fishes of the world: Huso huso *(Linnaeus, 1758) (Acipenseridae), by P. Vecsei, R. Sucui & D. Peterson* 363–365

Threatened fishes of the world: Cyprinodon pecosensis *Echelle & Echelle, 1978 (Cyprinodontidae), by G.P. Garrett, C. Hubbs & R.J. Edwards* 366

Farewell editorial

Reminiscing briefly about *Environmental Biology of Fishes*, by E.K. Balon 367–371

Full papers

The 'small barbs' *Barbus humilis* and *B. trispilopleura* of Lake Tana (Ethiopia): are they ecotypes of the same species?, by E. Dejen, H.A. Rutjes, M. de Graaf, L.A.J. Nagelkerke, J.W.M. Osse & F.A. Sibbing 373–386

Life-history patterns of 25 species from European freshwater fish communities, by A. Vila-Gispert & R. Moreno-Amich 387–400

Movements and habitat use by the endangered Australian freshwater Mary River cod, *Maccullochella peelii mariensis*, by R.R. Simpson & A.J. Mapleston 401–410

Ontogenetic behavior and migration of Volga River Russian sturgeon, *Acipenser gueldenstaedtii*, with a note on adaptive significance of body color, by B. Kynard, P. Zhuang, L. Zhang, T. Zhang & Z. Zhang 411–421

Threatened fishes of the world: Gambusia heterochir *Hubbs, 1957 (Poeciliidae)*, by C. Hubbs, R.J. Edwards & G.P. Garrett 422

Litter overlap in *Gambusia hubbsi*: superfetation revisited, by J.F. Downhower, L.P. Brown & M.L. Matsui 423–430

Direct development of the visual system of the coral reef teleost, the spiny damsel, *Acanthochromis polyacanthus*, by P.M. Pankhurst, N.W. Pankhurst & M.C. Parks 431–440

The effects of satiation on strike mode and prey capture kinematics in the largemouth bass, *Micropterus salmoides*, by G.G. Sass & P.J. Motta 441–454

Threatened fishes of the world: Acipenser nudiventris *Lovetsky, 1828 (Acipenseridae), by P. Vecsei, E. Artyukhin & D. Peterson* 455–456

Brief communications

Habitat and fish fauna structure in a subtropical mountain stream in Taiwan before and after a catastrophic typhoon, by K.S. Tew, C.-C. Han, W.-R. Chou & L.-S. Fang 457–462

The relationship between egg size and the rate of early development in Arctic charr, *Salvelinus alpinus*, by S.K. Valdimarsson, S. Skúlason & S.S. Snorrason 463–468

Dummy egg production by female cardinalfish to deceive cannibalistic males: oogenesis without vitellogenesis, by G. Kume, A. Yamaguchi & I. Aoki 469–472

Role of eel odour on the efficiency of an eel, *Anguilla anguilla*, ladder and trap, by C. Briand, D. Fatin & A. Legault 473–477

Threatened fishes of the world: Dionda diaboli *Hubbs & Brown, 1956 (Cyprinidae), by G.P. Garrett, C. Hubbs & R.J. Edwards* 478
